PREPARING TO MOVE.

The Fire Department Boys will Occup New Quarters,

BUTTE, May 26 .- To-day the firemen of the Quartz street fire house have been busy polishing up the hook and ladder truck and getting it ready to take down to the new city hall. It will be moved either to-morrow or Thursday. Captain O'Malley of the Quar z street house will move to the city hall with his crew in charge of the hose cart. Only the chemical and the spider will be left at the Quartz street

Chief Murray is working hard to secure quarters somewhere for the volunteer firemen. If the old city half is sood, the firemen are likely to be left out in the cold. The boys have \$500 worth of bookcases and books, and also have a starter for a gymnasium. Ex Chief Thomas of the Brigade to-day presented the fire boys a horizontal bar and other gymnasium material left over from the brigade house. He was heartily thanked in a neat speech by Captain O'Malley.

What the New Electric Light Company Proposes to Do.

THE COUNCIL WILL MEET

Matters of Importance to be Con sidered by the City Solons-Bids for Street Lighting.

BUTTE, May 26.-There will probably be a special meeting of the city council to-morrow night for the purpose of considering the means of raising money to pay what is due on the city hall and to consider other matters that may be brought to the attention of the council. Among the other matters, that of electric lighting will probably be brought up. At least the representatives of the Rocky Mountain Electric Light company are anxious to be heard on the matter. The subject of the controversy was outlined in the STANDARD this morning,

outlined in the STANDARD this morning, and a good many people in town think it the duty of the city to take advantage of all competition in city lighting, so that money may be thus saved to the city. At present the light committee has decided to advertise for bids for one year's lighting. The council will be asked to have this changed to three or five years, on the ground that much better terms can be made the city on a bid for three or four years than on a bid for one year.

one year.

Three years ago there was one electric light company in Butte and the city was furnished with 26 lights at an average cost of \$14.77 per light. A new electric company entered the field, but instead of the result being an advantage to the city, was a disadvantage, the companies

company entered the field, but instead of the result being an advantage to the city, it was a disadvantage, the companies putting in bids that were precisely the same—\$17.50 per helt for 26 lights. The city now pays \$16.60% for 44 lights, each company furnishing one-haif the lights, "We can save the city \$1,000 per year by merely being allowed to bid," said S. W. Graves, secretary of the new company, to-day. "We can save the city \$4,000 in five years, over the present prices. Why should not the city save this amount? All the city will have to do in order to save the tax-payers of Butte several thousand doliars is to make the bids for one, three and five years, or one and three years, or three years only. We will not hid on a one year contract, but we will make a very advantageous bid to the city on a term of three years.

"The other two companies are practically one company and as no competition exists between them, there is nothing to prevent their charging \$25 per light for the city lighting if they so desire.

"Now it is argued that the city has more poles and wires now than itought to have, it will not have any more by letting our company in. If we are the successful

poles and wires now than it ought to have, it will not have any more by letting our company in. If we are the successful bidders for the city lighting, we will either buy the poles of the other companies used for city lighting, provided they will sell, or their poles can be cut down as being no longer of service. If we don't get the contract, there will be no more poles than at research, and our entrance into the at present, and our entrance into the field will have had the effect just the same of lessening the cost of ligning the city. As far as our home service is con-cerned, we propose to use underground

"Another argument that is advanced is "Another argument that is advanced is that all we want is to frighten the other companies and get them to buy us out. If that was our object we would be ready to bid on one year just the same as on three years. But we have no such intention. We want to enter the fleid for the purpose of course of making money and all we ask is a fair chance to bid.
"It is argued by the other companies

"It is argued by the other companies that there is no money in lighting the city even at the present rates. We believe there is money in it and we are so confident of it that we are ready to let the city have much better rates than it has at present, and we can still make money at it. it. If the other companies do not make money, it is because of bad management and not because there is no money in the

usiness.
"You must remember that the cost of lectrical supplies and apparatus is some electrical supplies and apparatus is some 40 per cent, less than when the first compay was formed and some 25 per cent.

less than when the second company was
organized. It would be to the decided
advantage of the city to invite all the
competition possible and if it advertised
in electrical journals for a term of years
it would doubtless bring half a dozen
bidders into the field.

"As to whether we are in a position to

"As to whether we are in a position to furnish lights as desired in the bid, and to furnish the lights at once, it is a suffi-cient answer that we are ready to put up a bond as large as any other company can put up."

BUCKED THE TIGER. Money Which He Won Taken by His Partner.

BUTTE, May 26. - James O'Donnell bucked the tiger last night. When he went home to his cabin on Mercury he had \$105. Thomas White went along with When O'Donnell got up this morning he found that the cash had been taken from his pockets while he slumbered. White was asteep and O'Donnell suspected that he had taken the money. So he informed Officer Cantwell, who arrested White and the money was found in his possession. He says O Donnell was drunk and he took the money to keep until his friend became sober. White was given 24 hours to plead to grand lar-ceny and was placed under \$250 bonds.

Reception to the Ladies.

BUTTE, May 26.-A reception will be given to the lady friends of the Silver Bow club to-merrow afternoon. Madam DeBeitram and her orchestra will be present and render a fine programme.

"CAP." WYMAN WAS THERE. He Unfolds a Tale of the Fertile Flathead

Valley. BUTTE, May 26.-Capt. L. F. Wyman. deputy internal revenue collector, returned to-night from a 10-day trip in the Flathead country. The genial captain was bearded like a padre, and had a complexion like the rhind of a smoked ham. "I've had a great trip," said he to a STANDARD reporter, "that is truly a land of promise. The people here have no concention of the great activity up there. conception of the great activity up there. Everything is going ahead with a rush. Demersville is to-day a town of at least 1,500 people. Some of these of course, are only temporary residents of the place. In the town of Kalispell there are more than 100 buildings already and new ones are being put up every day. Kalispell is about three miles from Demersville and two miles north from Ashley, which already contains about 75 buildings. Enormous crowds are going in on every boat. The new boat on the Flathead lake is a dandy. It is called the Crescent and is 120 feet long, 28 feet wide, has 12 state rooms and a dining room for 40 persons. She has a tonnage of 150 tons and is a very trim craft, manned and managed by men who know their business. conception of the great activity up there.

"The saloon interests predominate in that country. In Demersville there are 49 saloons in active operation, in Kalis-pell there are 15, in Ashley 2 and in Co-iumbia Falls 12, all within a radius of 25

miles.
"I am very enthusiastic over the prospects of the Flathead country. The coal banks at the upper end of the valley from Demersville are marvelously rich. They are owned by J. E. Gaylord, John A. Dav.s, Ben Tibbey, Jun Falbot and Frank Laneford. I understand these coal fields will be extensively worked in the very

"There is talk of the Northern Pacific building a road from Avon to Columbia Falls. A. B. Hammond, the Missoula merchant, also told me that a road is projected from Jocko, on the Indian reservation, to D. mersville, a distance of about 90 mites. Hammond is in this scheme, in company with other men who have plenty of means to build it if they take a notion.

I am greatly pleased with the town of Columbia Falls. This will be a good business town some day soon. The affairs of the new city are in the keeping of Frank Langiord, one of the brighest young business men in Montana. Thouga only 28 years old, Langford has already, by his ability and integrity, amassed a very comfortable fortune. He will make a big stake out of Columbia Falls."

WANTED THE EARTH. He Got It Without Money and Without

Price.
BUTTE, May 26.—A. C. Hollenbeck was tried in Judge Muldoon's court this afternoon for stealing the earth that Dr. J. L. Tam claims to own. Recently Dr. Tam bought a fine lot across Missoula gulch, paying \$1,000 for it. The other day Joe Whatley wanted his front yard graded and filled and paid Mr. Hollenback for the job. Mr. Hollenbeck cast covetous glancos at the dirt on Dr. Tam's lot and the more he looked the more ne thought that dirt was just the dirt he wanted. At

that dirt was just the dirt he wanted. At last he was no longer able to resist and began to cart Dr. Tam's lot over to Joe Whatley's lot.

When Dr. Tam discovered what was being done with the earth he paid \$1,000 tor, he was wroth. He went straightway to a justice of the peace and swore out a complaint for Mr. Hollenbeck's arrest. The trial took place this afternoon before a jury of Mr. Hollenbeck's peers. The fact of the strailing of the dirt was admitted, but it was urged that after the thelit was discovered, Mr. Hollenbeck had offered to pay Dr. Tam \$10 for his earth. This proposition was indignantly refused This proposition was indignantly

This proposition was indignantly refused by Dr. Tam, who, however, offered to compromise for \$25.

The jury rendered a verdict declaring the defendant not guilty. The county thus becomes the chief sufferer in the case. Notice of appeal was given.

ALL CAN BATHE.

A Large Plunge Bath Will Soon Be Built,

BUTTE, May 26 -George Savage of Anaconda is in Butte, trying to arrange for the building of a magnificent plunge bath and natatorium here. He proposes to build one of the largest and best places of this kind in the country. He said: can get the encouragement which I hope tor, I will put in a plant that will cost not less than \$.5,000 or \$30,000. There is room for such a building in this city and

room for such a building in this city and I am sure it would pay well after being built. I will put up a building 60x100 feet. In this there will be Turkish baths, with tubs and every modern convenience."

Several prominent men in this city were seen by Mrs. Savage to-dhy and said they would lend the scheme a helping hand. Contracter McSphery is one of those who is interested in the move. Architect J. R. Roberts has been entrusted with the preparation of the building plans, and they will be completed in a few days.

An option has been secured upon several desirable places suitable for a site for such a building. One of these is located near the Montana Union depot. It has been suggested by some, interested, that the Nata forium be built near the new building of the athletic club. It is building of the athietic club. It is thought that such a scheme would be a leasable and profitable one. The new club does not seem, however, to possess any remarkable amount of vitality.

Patrick Largey Begins a Large-Sized Lawsuit.

THE PLAINTIFF'S COMPLAINT

The Blue Bird Mining Company Made Defendants-Pay Wanted for Ore Removed.

BUTTE, May 26.—Patrick A. Largey began a suit of considerable magnitude in Department I. of the district court to-day. He demands judgment against the Blue Bird Mining company for the sum of \$1,890,000. Mr. Largey's complaint sets forth that he is owner of one-half of the Little Darling quartz lode and one-fourth of the Lena K. quartz lode. His co-tenants in the Little Darling lode prior to the 8th of March, 1891, have been James A. Murray, George H. Tong and the grantee of Tong, Lutu F. Largey. The defendant, it is alleged, has not and never had any right, title or interest in the premises, or any part thereof prior to March 8, 1891. Further the complaint says: "That while the plaintiff was the owner and in pos-session and entitled to the possession of the said property, as aforesaid, the said defendant, without the consent the said defendant, without the consent of plaintiff, or any of his co-tenants, and without any right to do so, and with force and arms, did secretly and fradulently, on or about the 1st day of October, 1887, and on different and sundry times since said date, up to the said 8th day of March, 1891, break and enter into and upon said property, by and through underground workings, made by defendant, and did mine, extract and carry away, and convert to its own use, large quantities of valuable ores and minerals therefrom, and more particularly from said Little Darling lode claim; and plaintiff did not discover that defendant was so fraudulently removing such ores until tilf did not discover that defendant was so fraudulently removing such ores until about —; and that the value of the ores and minerals so extracted and carried away from the Little Darling claim by the defendant, during the said period and prior to the 8th day of March, 1891, is \$2,570,000, as plaintiff altered to the said period to the said period and prior of the said period and prior to the 8th day of March, 1891, is \$2,570,000, as plaintiff altered to the said period and prior of the said period and prior to the 8th day of March, 1891, is \$2,570,000, as plaintiff altered to the said period and prior of the said period and prior to the 8th day of March, 1891, is \$2,570,000, as plaintiff altered to the said period and prior to the 8th day of March, 1891, is \$2,570,000, as plaintiff altered to the said period and prior to the 8th day of March, 1891, is \$2,570,000, as plaintiff altered to the said period and pe leges on intermation and belief, of which

of March, 1891, is \$2,570,000, as piaintiff alleges on information and belief, of which sum the one-half, to-wit, the sum of \$1,-250,000, belongs to plaintiff, and that plaintiff has the reby sustained damages in the sum of \$1,250,000; that the defendant mined, extracted and carried away ores and minerals from the Lena K. lode claim, during the said period, prior to the 8th day of March, 1891, of the value, as plaintiff alleges on information and belief, of the sum of \$60,000, of which sum one-fourth thereof, to-wit, the sum of \$15,000 is the share of and belongs to the plaintiff, and thereby the plaintiff by reason of the said taking and carrying away of said ores, has sustained damages in the sum of \$15,000."

The plaintiff further alleges that since the 6th day of March, 1888, George H. Tong and his grantee, Lulu F. Largey, has been the owners of an undivided one-fourth of the Little Darling lode, and the complaint goes on to show that they are entitled to \$625,000, which claim has been assigned sto the plaintiff. F. T. Mc-Bride and Toole & Wallace are attorneys for the plaintiff. for the plaintiff.
